

Sreeraj Janardhanan

Consumer Fintech Product Leader | Lending Platforms | Growth | Behavioural Product Design
Bangalore, India | sreerajjan18@gmail.com | +91 8669688643

PROFESSIONAL SUMMARY

Product leader with 9 years of experience driving consumer product strategy, growth and experimentation across fintech platforms serving 20Mn+ MAU. Currently leading 0-to-1 product strategy and new ventures across 7 business lines at Bajaj Finance; previously owned 15+ lending products and experimentation programmes delivering ~₹1,500 Cr in incremental annual revenue. Combines deep fintech and lending-platform expertise with behavioural research, experimentation and AI-enabled product development to translate ambiguous consumer and business problems into scalable product bets.

PROFESSIONAL EXPERIENCE

Bajaj Finance Limited Nov 2021 – Present

Lead, Design Thinking— Product Strategy & New Ventures

Feb 2026 – Present

Product strategy and new venture development across 7 business tracks spanning lending, Payments and Wealth Management.

- **Lead 0-to-1 product strategy and new-venture prioritisation** across seven business tracks; partner with senior business leaders to identify, evaluate and rank new growth opportunities.
- Designed and ran a **6-month consumer, market and business research programme** across BFL's target segments and product portfolios, translating insights into opportunity areas, hypotheses and product bets for new product development.
- Apply **behavioural research, statistical modelling and triangulation** across quantitative and qualitative inputs to identify high-confidence consumer and market signals and inform product prioritisation and go/no-go decisions.
- Defined the **product and technical strategy for Atlas**, a multi-agent AI system built on Databricks and LangGraph that enables business heads, PMs and analysts to query data, research and analysis through natural language; currently in development.
- Partner with Data Science and Engineering to define Atlas's **agent architecture, use-case roadmap and evaluation framework**, covering answer accuracy, tool orchestration and AI guardrails.

Senior Product Manager — Digital Platforms

Apr 2024 – Feb 2026

Product ownership across BFL's 20M+ MAU app and web platforms — 15+ lending and credit products across secured and unsecured portfolios.

- Delivered **~₹1,500 Cr in incremental annual revenue** through a portfolio of **150+ product experiments and 50+ user research studies**, driving improvements in conversion, activation and retention.
- Owned **product strategy and roadmap prioritisation across 15+ lending products**, balancing customer outcomes, commercial opportunity and engineering investment across secured and unsecured portfolios.
- Led and mentored a team of **5–10** (product managers, designers, analysts, UX writers); negotiated roadmap scope and sequencing with technology leadership, explicitly trading engineering effort against expected business impact.
- Diagnosed systemic app-search friction through a **247-keyword Playwright audit**, identifying seven intent-match, vernacular and content gaps; secured SVP sponsorship to establish search as a strategic product priority and delivered a **20% increase in TSR**.
- Integrated **Medallia and Contentsquare** across digital journeys, establishing closed-loop measurement across product releases and contributing to a **10% improvement in user satisfaction**.
- Delivered C-suite presentations on financial inclusion, regulatory compliance, and transparent user journeys — actively removed dark patterns to build customer trust.

Product Manager — Digital Platforms

Nov 2021 – Mar 2024

Product ownership across BFL's app and web platforms — lending journeys and origination stack.

- Owned delivery of core lending-platform capabilities including **Account Aggregator (AA), KYC, mandate and e-agreement**, translating business requirements into product specifications and working with engineering, QA and business teams through launch.
- Drove **backlog prioritisation, sprint planning, UAT and release management** across development teams, coordinating stakeholder sign-offs and go-live readiness within an Agile delivery cadence.
- Built foundational expertise in BFL's digital surfaces (app, web, PDPs, statement of account) through heuristic evaluation, service blueprint, and behavioural analysis, using customer and journey insights to inform subsequent product enhancement and roadmap decisions.

Product Manager — RMDV2 (Requirement Management and Design Verification & Validation)

IBM-powered SaaS platform digitalising the vehicle product development lifecycle across engineering, design, and testing teams.

- Owned **end-to-end product vision, roadmap and launch** for RMDV2, translating engineering and business requirements into a scalable product that **reduced vehicle development time-to-market by 15%**
- Led shift from specification-driven to experience-driven requirements in partnership with **Warwick University (JLR practices)**; translated inputs from 50+ engineers into user stories, acceptance criteria, and prioritised backlogs.
- Established sprint cadence, UAT sign-off protocols, and release management practices spanning engineering, testing, and design, reducing average bug-resolution time by 25% within first quarter.

SKILLS

Product Strategy & Growth: Product Strategy, 0-to-1 Product Development, Growth Strategy, Roadmap Planning, Product Discovery, Monetization, Go-to-Market, Experimentation & A/B Testing, Funnel Optimisation, Activation & Retention, Feature Prioritisation, Cross-functional Leadership

Behavioural & UX Research: Human-Centred Design Thinking, Behavioural Research, Journey Mapping, Usability Testing, Heuristic Evaluation, VoC Research, Persona Design

Domain Expertise: Fintech, Consumer Lending, Digital Financial Services, Payments, Wealth Management, Loan Origination, Credit & Lending Platforms, Account Aggregator (AA), KYC/eKYC, Mandates & e-Agreements

Analytics, Data & AI: Google Analytics, Clever Tap, Medallia, Contentsquare, Playwright, Clickstream Analysis, Cohort Analysis, Behavioural Analytics, Statistical Modelling, LLM Product Design, RAG, AI Evaluation & Guardrails.

EDUCATION

National Institute of Technology, Tiruchirappalli (NIT Trichy)

2013 – 2017

Bachelor of Technology — Mechanical Engineering

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- HFI Certified Usability Analyst (CUA) — Expected Jan 2027
- Design Thinking training — NID Ahmedabad (Dean-led programme) and IDEO
